PROFESSIONAL SUMMARY

Software Development Engineer with strong foundations in data structures, algorithms, and object-oriented programming. Implemented reliable software systems, debugged production issues using logs and metrics, and delivered high-quality solutions in Agile environments. Demonstrated ownership, leadership, and bias for action.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript

Data Structures and Algorithms: Arrays, Strings, Hash Maps, Linked Lists, Trees, Graphs, Recursion, Dynamic Programming, Time and Space Complexity

Software Engineering: Object-Oriented Design, Debugging, Unit Testing, Code Reviews, Git

Databases: MongoDB, SQL, Indexing, Query Optimization

Systems: Linux, Processes, Memory Basics, File Systems, TCP/IP

Cloud & DevOps: Microsoft Azure, Docker, CI/CD Pipelines

EXPERIENCE

Microsoft – Software Engineering Mentorship | Jan 2025 – Jul 2025

- Implemented Python-based software components with structured logging and metrics.
- Debugged issues by analyzing logs, stack traces, and performance indicators.
- Deployed and maintained applications on cloud infrastructure.

Ripan Technologies – Software Developer Intern | Mar 2024 – Jul 2024

- Implemented software services and optimized database queries and API logic, improving response time by 30 percent.
- Maintained backend services and resolved production issues during Agile sprints.

IIIT Allahabad – Cybersecurity Intern (Faculty-Guided) | Oct 2023 – Mar 2024

- Conducted vulnerability assessment and penetration testing on web and Linux-based applications.
- Identified security flaws by intentionally breaking application flows and misconfigurations.
- Reported security issues with reproducible steps and remediation recommendations.

Toptal Top 3% world wide Sde I 2026 – Present

- Implemented custom software solutions for clients with end-to-end ownership.
- Built and maintained APIs and automation tools, handling development, testing, and delivery.

LEADERSHIP & ACTIVITIES

Vice President – Coding Club, The Apollo University

- Led a 250-member coding club across a 650+ student university.
- Organized programming workshops and web conferences.
- Mentored 80+ junior students in data structures, algorithms, and programming fundamentals.
- Maintained learning materials and guided peer-led technical sessions.

NSS Coordinator

- Coordinated university-wide initiatives involving 150+ student volunteers.
- Led planning and execution of community and technical programs.

PROJECTS

Log-Based Threat Detection System

- Implemented a Python pipeline to process more than 5,000 system logs and detect anomalous patterns.

Cloud Monitoring Service

- Developed and maintained a containerized service to collect and expose application metrics via APIs.

EDUCATION

Bachelor of Technology in Computer Science Engineering (Cybersecurity)

The Apollo University | 2023 – 2027 | GPA: 9.59 / 10
